SKILLS

PROGRAMMING

Language:

- C++/C • Java • TypeScript • JavaScript
- HTML/CSS • DSA

Database:

- MongoDB • MySQL • Postgres

Framework:

- ReactJs • NodeJs • ExpressJs
- Tailwind CSS • Prisma • Hono
- Cloudflare

Developer Tools:

- Visual Studio Code • Replit
- Postman

ACHIEVEMENTS

- GeeksforGeeks - Institute Rank 1
- GeeksforGeeks programmer: 500+ problems solved
- Certified Frontend Developer (ReactJS) by HackerRank
- Participated in Smart India Hackathon (SIH)

EXPERIENCE

Correct Steps Consultancy | Full Stack Developer Intern

August 2024 - October 2024

Developed and maintained web applications. Leading projects from conception to deployment, collaborating with cross-functional teams to ensure seamless integration and functionality.

Technologies: MERN Stack, Project Management, Research and Development

MedWander | Full Stack Developer Intern

June 2024 - August 2024

Constructed a web application for MedWander that enhanced patient engagement through personalized health recommendations.

Technologies: Node.js, React, MongoDB, HTML, CSS, JavaScript, MUI, React-Query, Express.js

PROJECTS

Medicare Appointment Booking Website

[🌐 LINK](#) | MERN APPLICATION

- Medicare Appointment Booking platform with role-based authentication, doctor listings, search, Stripe payment, and profile management, implementing advanced concepts like MongoDB aggregation, debouncing, query middleware, custom hooks, and Context API.

Technologies: Reactjs, TailwindCSS, Nodejs, MongoDB, Mongoose, JWT, Stripe payment, Cloudinary, Context API, React router v6

Mini ChatGPT

[🌐 LINK](#) | MERN APPLICATION

- Developed a Mini ChatGPT application with user authentication (login/logout) and multi-language support for dynamic responses. Integrated features allowing users to ask questions on various topics, including technical subjects, and receive real-time responses in multiple languages. Ensured a seamless user experience with a conversational interface and natural language processing capabilities.

Technologies: Node.js, React.js, Express.js, MongoDB, OpenAI API

E-Commerce-RESTful-APIs

[🌐 LINK](#) | Nodejs APPLICATION

- Implemented a robust RESTful API for managing users, products, orders, and payments using Node.js, Express.js, and MongoDB.

Technologies: Node.js, MongoDB, Express.js, bcrypt, Stripe payment, VS Code.
